

HRVATSKA KOMORA INŽENJERA GRAĐEVINARSTVA

Dani Hrvatske komore inženjera građevinarstva

Opatija, 2019.

# Mass Timber Applications

using innovative connection systems

**Leander A. Bathon**

**Oliver Bletz-Mühldorfer, Jens Schmidt**

Hochschule RheinMain University – Campus Wiesbaden

| Institut für Baustoffe und Konstruktion | MPA Abteilung Holz

Solemar - Therme

Bad Dürrheim 1987

Toscana - Therme

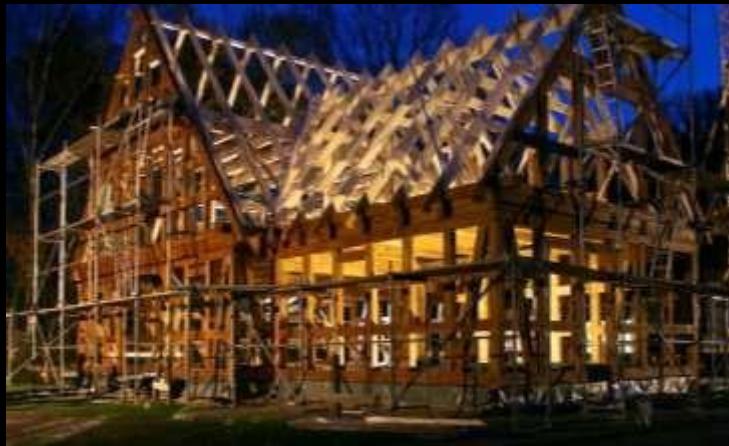

Bad Orb 2010

# Evolution in timber

!

production ...

1 level

assembly...

9 levels

# Evolution in geometry

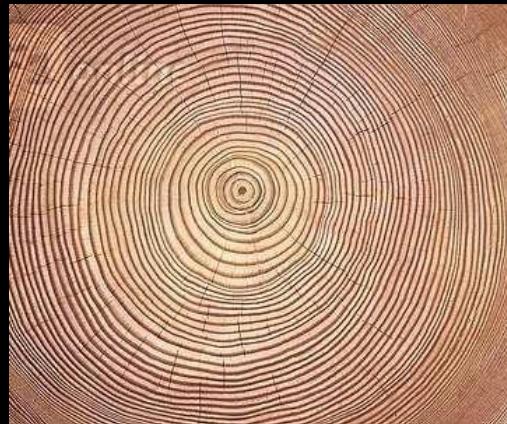

sticks...

to

plates...

# Performance

fire

# Cost

1 \$/kg

500 \$/cbm

8.000 \$/cbm

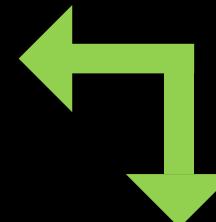

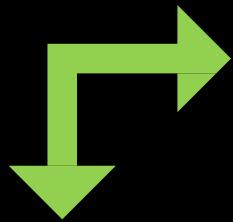

100 \$/cbm

450 \$/cbm

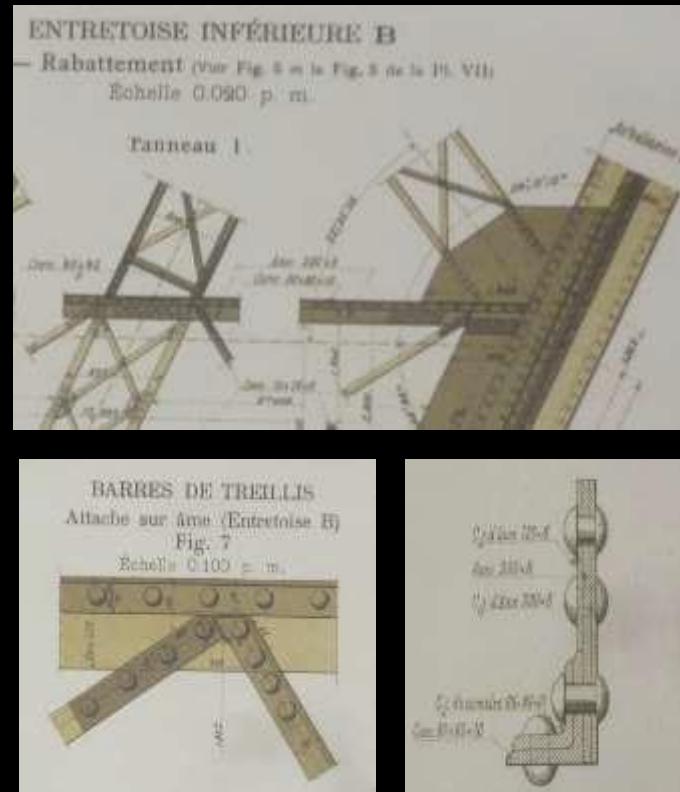

# Composite Systems

...the challenge is the connections!

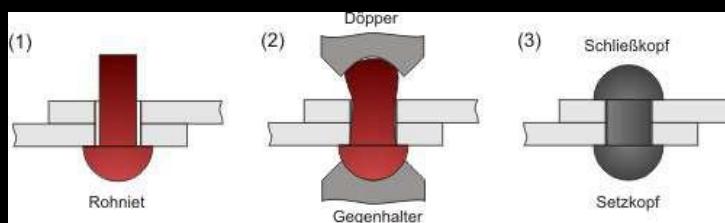

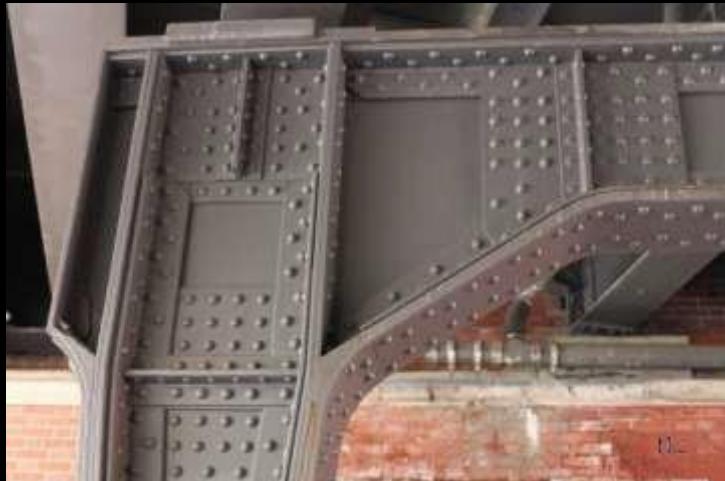

# Structures

...depend on connections

# Rivets

...the beginning

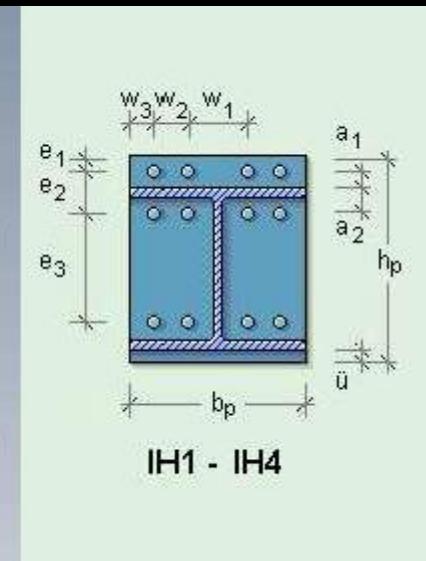

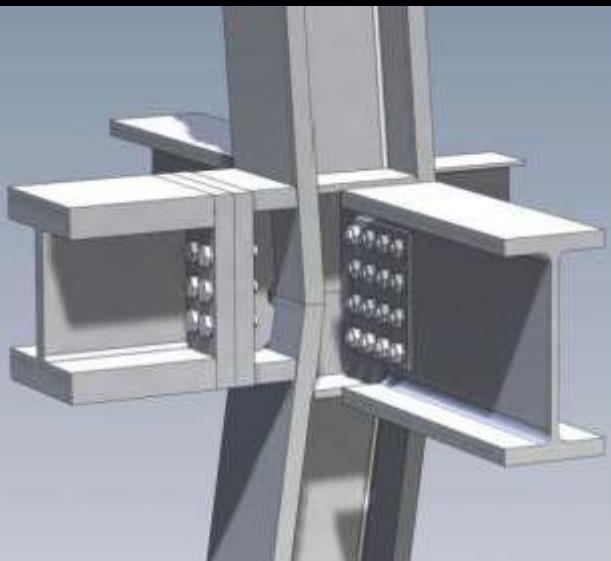

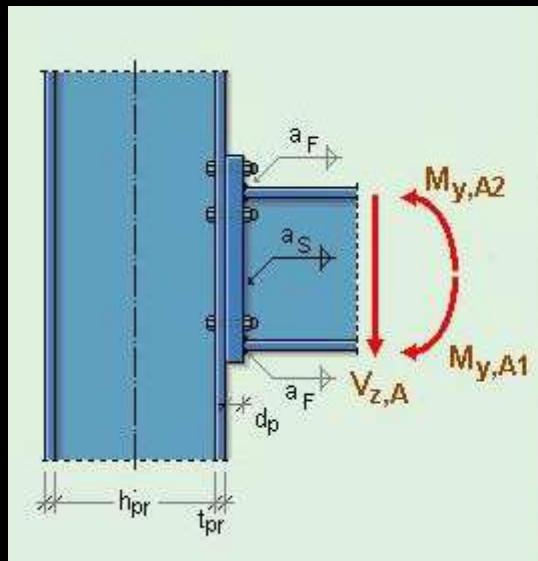

# Welding

...the revolution

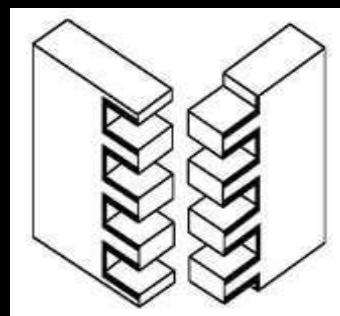

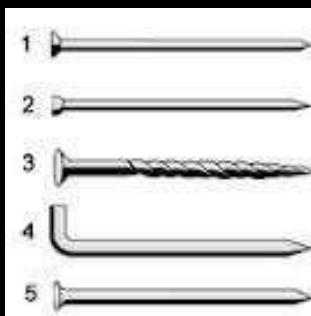

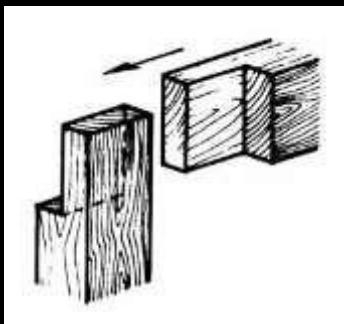

# Welding + bolts

...the solution

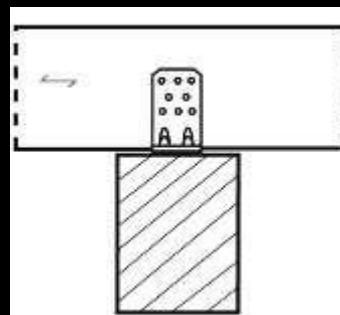

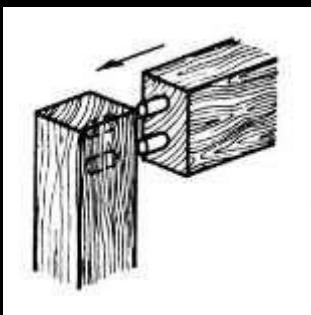

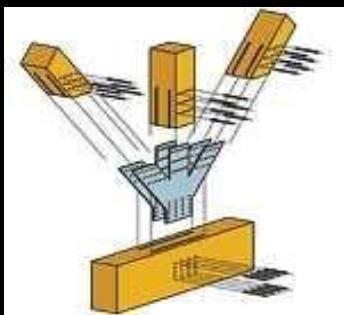

# Connections in timber design

Linked

Nails

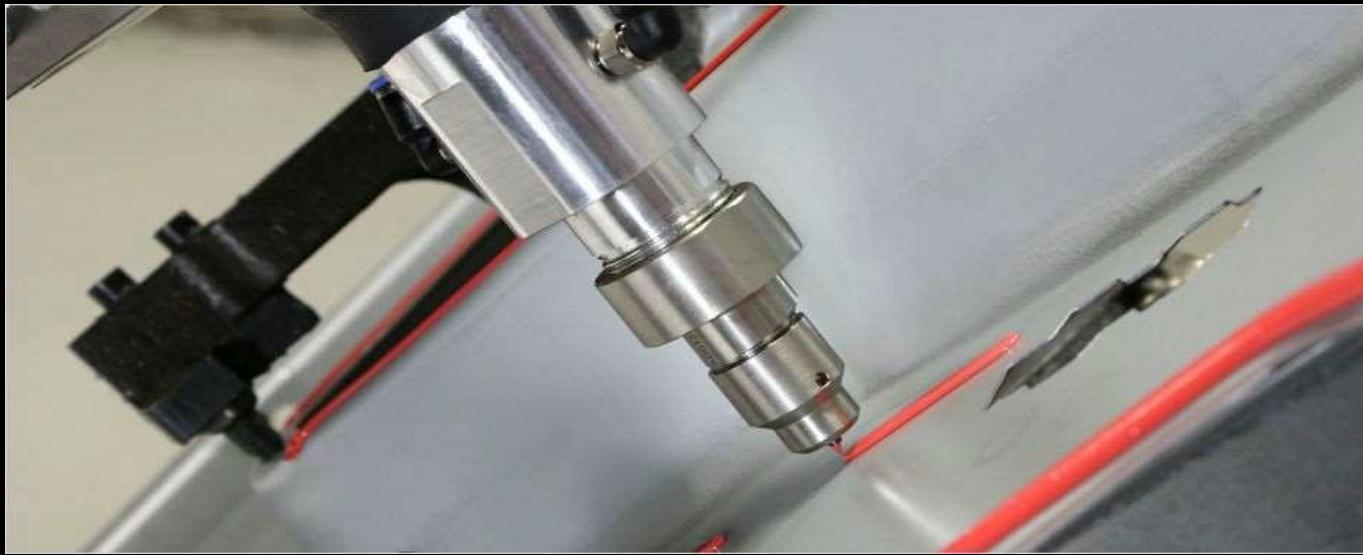

Bolts

Pins

... adhesive action

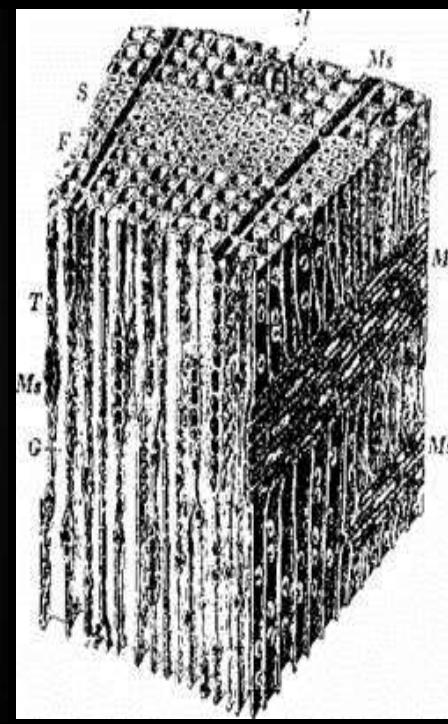

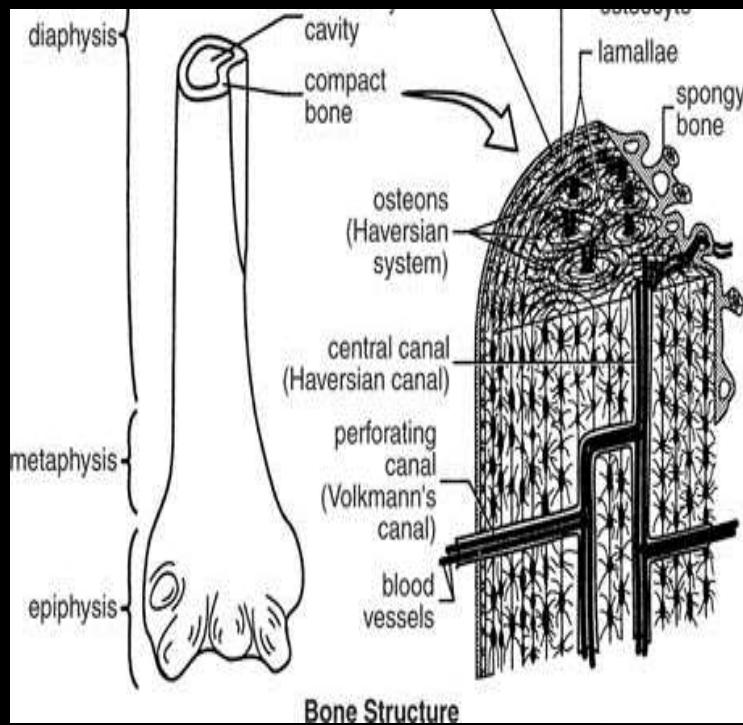

# Adhesive connections in automotive

# Adhesive connections in medicine

# Think out of the Box !

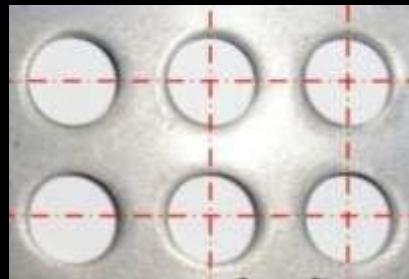

# Adhesive connections

wood

- sustainable
- light
- free geometries

steel

- ductile
- isotropical
- easy to design

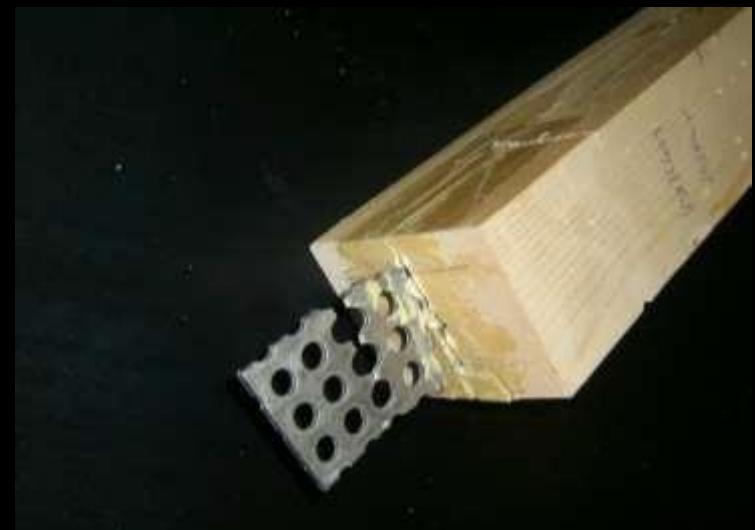

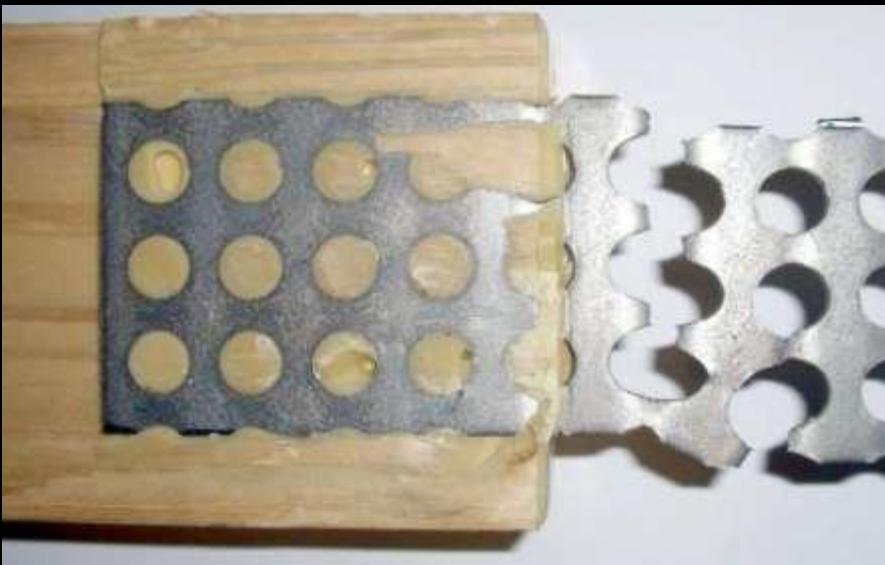

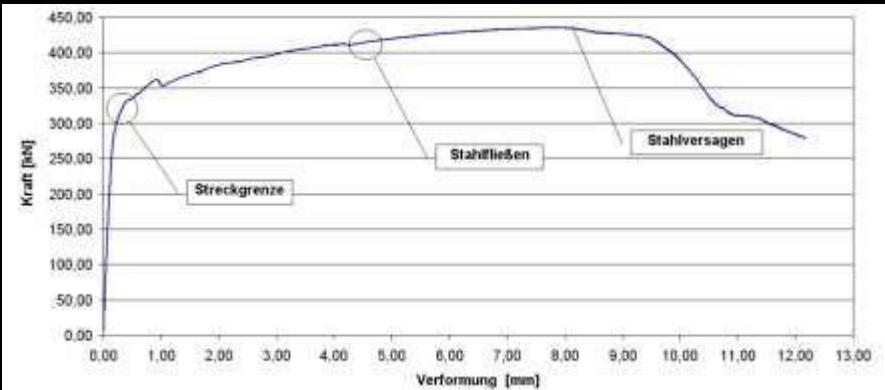

adhesive

- gap filling
- fast curing
- environmental friendly

# Adhesive connections

...with ductile behaviour

Design criteria

steel failure

adhesive failure

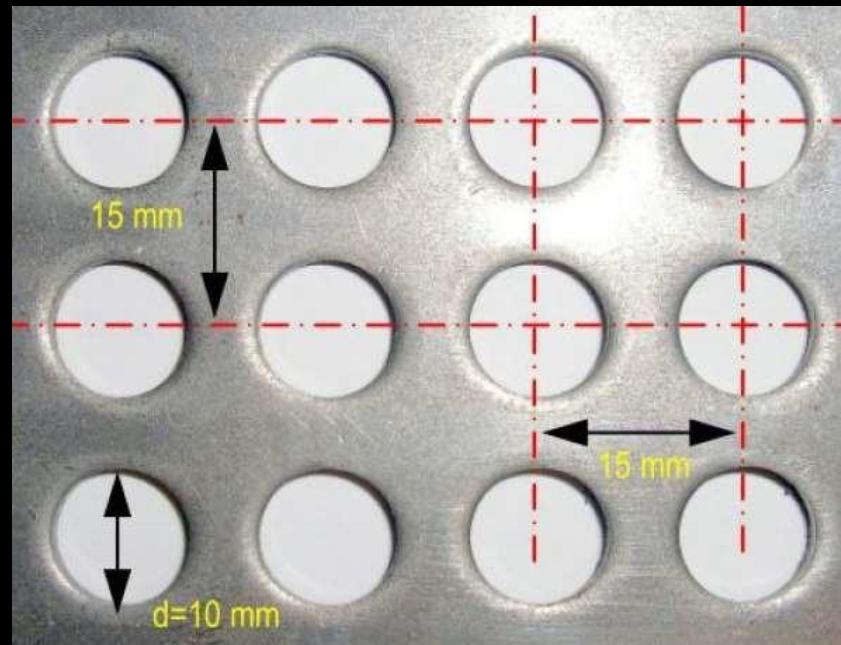

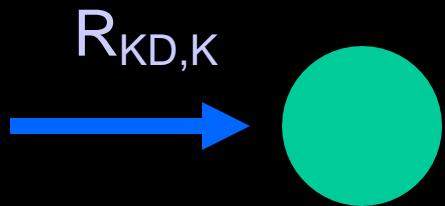

wood failure

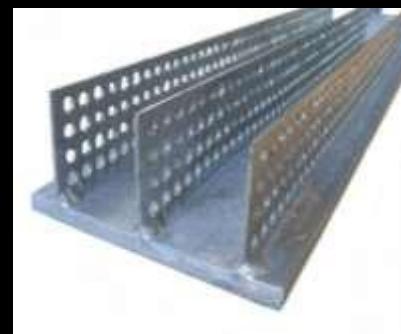

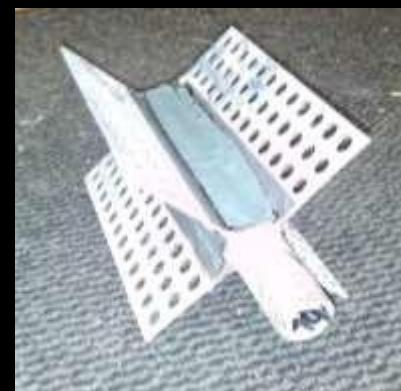

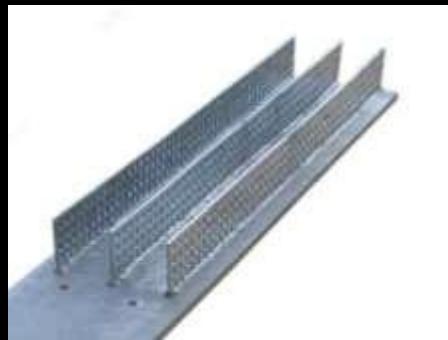

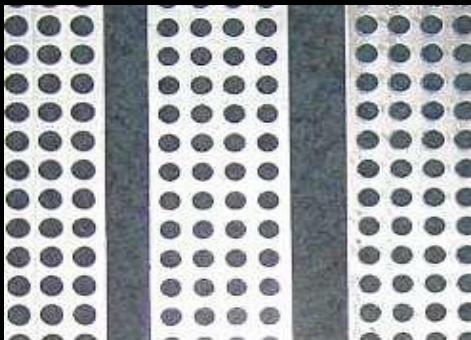

...design in steel, build in wood!

## design criteria

$R_{KD,K} = 800 \text{ N}$  per dowel

$K_{ser} = 7400 \text{ N/mm}$  per dowel

# Topics

Time.....Cost.....Performance.....

End grain connections „hsk-pipe“

# Adhesive Connection

...steel design with timber

implant

## Soccer Ball

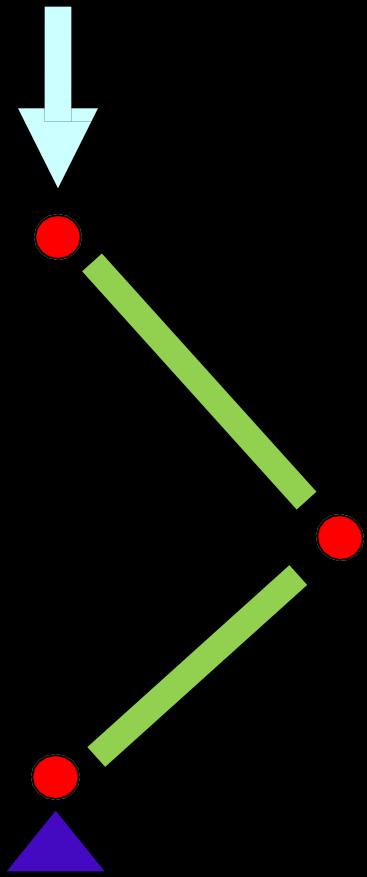

... 82 feet / 25 m diameter

# Topics

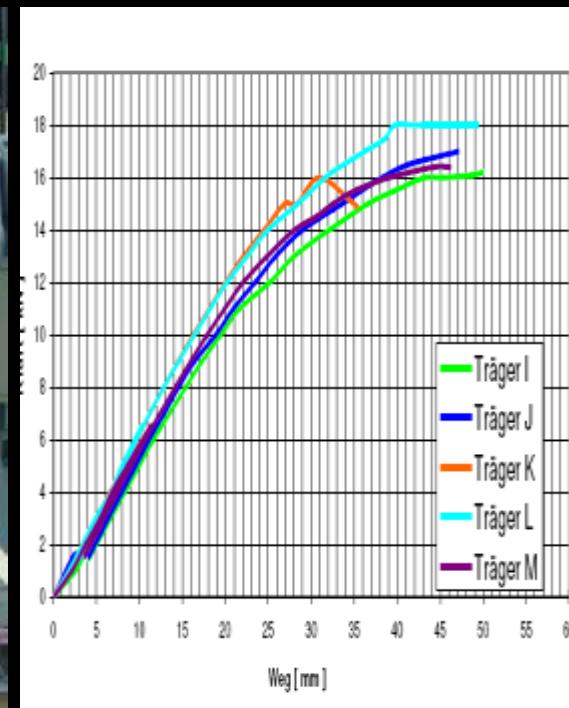

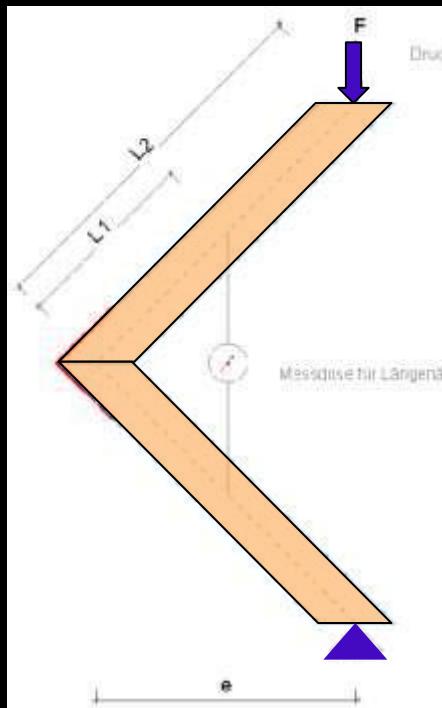

Time.....Cost.....Performance.....

Moment rigid connections

# Testing

... moment rigid frame

# Bathon Bike Shack

girder 3/5,5 in (L= 10 feet)  
column 1,6/8,7 in (H= 8 feet)
